Definitions

Training and assessment strategy means a framework that guides the learning requirements and the teaching, training and assessment arrangements of a VET qualification. It is the document that outlines the macro-level requirements of the learning and assessment process.¹

Assessment means the process of collecting evidence and making judgements on whether competency has been achieved, to confirm that an individual can perform to the standard expected in the workplace. This is expressed by the relevant endorsed industry/enterprise competency standards of a Training Package or by the learning outcomes of a VET accredited course.¹

Training and assessment techniques or tools used to gather evidence assessment.

Throughout training, students will develop new skills and knowledge. Combined with the workplace placement, students will, over time, gain the recognition of the skills they use with confidence in the workplace.

All pre-requisites for accredited units must be trained and assessed prior to the start of training for the required unit. Students must gain competency in the pre-requisite unit prior to the start of training for the unit with the pre-requisite.

Assessors have flexibility (according to the requirements of the Training Package and units of competency) in selecting which techniques or tools they will use to gather sufficient evidence, in a range of contexts, to make a decision (including RPL).

Note: this is a guide only and further detail can be found in the Staff Assessment Guidelines:

An assessment tool includes the following components:

- The context and conditions for the assessment.
- The tasks to be administered to the candidate,
- An outline of the evidence to be gathered from the candidate
- The evidence criteria used to judge the quality of performance (i.e. the assessment decision-making rules).
- The administration, recording and reporting requirements.

Training and assessment techniques or tools used to gather evidence assessment. The following matrix gives a general overview of some of the techniques or tools that will be used to gather evidence towards competency to enable judgments to be made about students' competency in each unit.

Credit Transfer (CT)

Credit Transfer is supplying the documentation to support the skill and knowledge you have previously gained in transfer of supported documentation. This means that you don't have to complete a competency again if you have already completed it previously.

Trainers will need to review if your accredited qualification or recognised units are still within a current training package or are equivalent to the current training package or units. Discuss your previous educational qualifications with your trainer to see if this is a possibility for you.

If you have completed an accredited qualification or recognised units of study with a Registered Training Organisation, you may be eligible for a credit transfer.

Note: this is a guide only. Further detail can be found in the Student Information Handbook.

Recognition of Prior Learning (RPL)

The objective of the Recognition of Prior Learning (RPL) for the Vocational Education and Training system is to ensure that an individual's prior learning achieved through formal and informal training, work experience or other life experiences is appropriately recognised.

RPL assessment collects evidence of learning that has occurred outside the formal education and training system. The RPL process is a more personal process involving the assessor collecting evidence and aligning the evidence to the requirements of the accredited course or training package qualification. Students may request an RPL Application Form for more than one unit.

Note: this is a guide only. Further detail can be found in the Student Information Handbook.

What RPL is Not!

Using the RPL process is not an easy way to get a qualification. It is not a matter of time served or amounts of experience but the specific and relevant learning which is assessed according to the prescribed Competency Standards. Applicants need to be committed to supporting their case by locating and providing suitable evidence and documentation as required by the Careers Training Centre.

ref: www.training.gov.au – SIT training package

Each of these assessment pathways leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired. Employability skills are integral to achieving workplace competency. Delivery and assessment of the training and assessment will be undertaken in an integrated and holistic way, as represented diagrammatically below.

ENVIRONMENT AND RESOURCES

Some units within the Certificate IV in Hospitality will require specific resources and environments for training and assessment.

The following list details the requirements of the resources and equipment for each of the assessment environments specified within each unit of competency. Additional resource requirements may apply for specific units of competency; these are listed within the assessment unit of each student.

Requirements for the following environments are detailed below:

Specific per-person equipment ratios specified in the following lists relate to the availability of these resources for the purposes of assessment. It is assumed that the same piece of equipment may be accessed by multiple candidates at different times.

Vocational placements are required under the Vocational Education, Training and Employment Act 2000 and allows a student to be placed in a work environment to provide the student with practical training and experience that is required under, and is an assessable part of, the student's course.

A vocational placement is generally an appropriate option for students who would not otherwise have sufficient access to the facilities, equipment and range of work necessary to develop and consolidate their skills to the level required for the Certificate IV in Hospitality.

All students are required to attend vocational work placements if not engaged as an employee, within a variety of local tourism and hospitality related businesses that support vocational placements for students.

Businesses that support vocational placements for Careers Training Centre are:

- Rainforestation Nature Park, Kuranda
- The Wildlife Habitat, Port Douglas
- The Cairns Wildlife Dome, Cairns
- Tropic Wings Cairns Tours

All trainers and assessors have access to the units of competency, assessment guidelines and qualification packaging rules from the training package at web site: <http://training.gov.au/>

Careers Training Centre has the resources of the CaPTA Group of Companies to draw upon as a major local employer and industry tourism leader.

CONTINUOUS IMPROVEMENT

Continuous improvement is based upon assessment validation as per Standards for Registered Training Organisations (RTOs) 2015.

Internal review procedure

Student feedback is collected and analysed and information reported to the Management Team. Feedback forms are analysed monthly and yearly and reported to the Chairman as part of the monthly reporting structure. This feedback is reported back to trainers and assessors as part of the continuous improvement process monthly and used in the annual performance review for all Careers Training Centre trainers and assessors.

- Feedback is ongoing and consistent and students, employer and industry are encouraged to also
- Student career pathways are documented in the Student Handbook

Student Data Storage and Security

All information is managed and held by Careers Training Centre and no third party has access to student information unless the student authorizes the release of this information, or the information is released under legislative requirements as advised in student hand book and sign up procedures.

Information is secured by password security and backup information is stored in an encrypted format for student protection.

Student Feedback

Your Feedback is really important to us!

We really appreciate your feedback. Let us know what is important to you. We have two (2) feedback forms to be completed by students:

1. AQF Survey

On completion or withdrawal from your Certificate III in Captive Animals, Careers Training Centre has an online link for students and employers to complete their AQTF surveys. You may enter your feedback through this link. <http://mastersit.com.au/vidatek/wp/index.php/learner/rto/capta>. You can also contact us on Email careers@capta.com.au or on our Website and download a feedback form: www.careerstrainingcentre.com

2. CTC Student Feedback

You can complete this feedback form online through this link https://docs.google.com/forms/d/1oLZWcCN_XN_NuoQj-jJ18YWWmAlV3adnQv9nBWxXilc/viewform?c=0&w=1

If you are concerned about something or wish to identify things we can change or improve a feedback form or questionnaire can be completed. We will ask you several times during the time you spend completing training with us to give us formal feedback. What was good / what was not? Feedback and questionnaires are part of maintaining consistency and best practices for us, so we take them very seriously. We encourage all students to provide feedback and have feedback forms available for students and employers to complete.

What is assessment validation?

Assessment validation involves 'reviewing, comparing and evaluating assessment processes, tools and evidence contributing to judgements made by a range of assessors against the same standards'.

What are the benefits

Assessment validation facilitates processes leading to consistent and valid assessment. In particular, validation activities:

- Ensure that assessment strategies meet the needs of clients;
- Facilitate the professional development of assessors;
- Enable enterprises and other stakeholders to contribute to assessment processes;
- Provide a means of gathering feedback and identifying ways of improving assessment processes;
- Facilitate consistent interpretation of competency standards;
- Foster the development of informal networks and provide assessors with access to up-to-date information about what is happening in their industry;
- Help assessors working across the industry to apply consistent standards and make consistent judgements.

These processes build assessors' confidence and industry acceptance of the outcomes of the national training system

Validation is a quality review process. It involves checking that the assessment tool produced valid, reliable, sufficient, current and authentic evidence to enable reasonable judgements to be made as to whether the requirements of the relevant aspects of the Training Package or accredited course have been met. It includes reviewing and making recommendations for future improvements to the assessment tool, process and / or outcomes. (Source: Standards for Registered Training Organisations (RTOs) 2015)

Assessment validation includes, but goes beyond, assessment moderation and includes Industry Consultation.

Industry consultation

Those consulted must be current in the industry and the consultation should have a clear impact on the strategy for training and assessment

Validation process

Training and assessment strategies and assessment items are reviewed annually by industry personnel as well other stakeholders, including other trainers and assessors and comments for continual improvements are noted.

Moderation

At Careers Training Centre, moderation is a quality assurance process directed at ensuring that assessments are marked with accuracy, consistency and fairness. Moderation can be effected through several methods and is part of the Quality Assessment Cycle. It includes the entire assessment event, including the design and post-event analysis of the fitness of the assessment of student learning.

Moderation is required for every assessment which involves a degree of subjectivity.

Assessments are designed so that they are clearly linked to the intended learning outcomes;

Pre-marking meetings or other activities are undertaken to ensure that assessors are able to clarify their understanding of the assessment criteria;

Assessment criteria are clearly communicated to students, both in the pre-assessment phase and also when providing feedback; and

Assessments are subject to regular review: their frequency, style and the relative success rate of students are appraised as a regular part of the improvement cycle

Moderation of Assessment			
Moderation is conducted annually with other trainers and assessors as part of the moderation process. All assessment instruments are reviewed to ensure they are appropriate for the units of competency and reflect information contained in the elements, performance criteria, range of variables and evidence guide.
